

ACC Contract Surgery

- You are due to undergo surgery funded by ACC.
- This surgery is fully funded by ACC. You will not have to pay anything for the surgery or the follow up.
- You may need to pay a surcharge at radiology if X Rays are required. If you would like ACC to pay this, you must organise that with you case manager yourself.
- The budget for this surgery is limited, thus it is likely there will be a few month wait for surgery in most instances.
- We do all the paperwork for you.
- You will get a letter from ACC telling you they have approved your surgery.
- At this stage we can book your surgery. We can not always do this immediately; however, we will endeavour to do this within a week. We will post this to you. Please phone us if you do not receive this after 1 week.
- We will call or post information to you a few days prior to your surgery to tell you what your admission time is, and what time to begin fasting.
- If you take your hospital and anaesthetic assessment forms home with you, please post them back to us NOT the hospital.
- If you have any questions call us on (09) 5209632.
